

# HOW CAN A HANDKERCHIEF PROTECT FORESTS?

When you use handkerchiefs instead of tissues, you become a conscious consumer and help reduce deforestation in Indonesia. What makes TRI Handkerchiefs even more special is they are **100% UPCYCLED** from retired bedsheets.

# HOW ARE YOU HELPING?

The profits from the sale of our handkerchiefs are donated to support grassroots organizations who are working to protect our Earth's precious trees and peatlands, starting right here in Indonesia.
